

Ring *Size* Guide

Before measuring your ring size, be sure this guide is printed in A4 size and scaled to 100%. You can check the accuracy of your print by positioning a credit card on the line below or placing the correct coin in one of the labeled ring sizes. If the card or coin lines up, you're all set.

PLEASE NOTE: This is a guideline, using the size guide may still hold some inaccuracies in size.

Option 1: Measure By Matching Your Ring

To find your ring size, use an existing ring that fits you well. Match the inside of the ring with the one of the circles below. When your ring has been placed on the right size, you should only see the grey circle.

If your ring fits between two sizes, use the larger size as the guide.

Option 2: Measure With Our Ruler

After you cut out the ruler, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end through the slit. To make sure the ring will fit comfortably, we suggest also measuring your knuckle.
